Isn't it used extensively in drag racing? Yes it is, and it's a unique category in oil additives with a milder version of deception. With high-alcohol fuels and high horsepower, there is a huge problem with the engine oil becoming VERY rapidly diluted (thinned out) by the alcohol. To combat this problem, drag racers commonly use a very ...

[Motor oil - Wikipedia](#)

Oil additives are used to reduce friction and engine wear, which is a function of oil itself. Engine oil lubricates engine parts to prevent excess friction, and keeping these parts coated in oil prevents things like the oxidation process from corroding an engine. Most oil will include the given base oil as well as various additives like anti ...

[The Best Oil Additives For Your Car \(Review & Buying Guide ...](#)

High operating temperatures, combined with the increasing regularity of stop-and-go driving, cause rapid depletion of critical oil additives. Without these protective additives, oxidation can reduce oil to heavy, black sludge in the crankcase, oil screens, oil passages, rocker arms and other critical areas of the engine.

[Synthetic Motor Oils, Engine Oils, Diesel Fuel Additives ...](#)

The role of engine oil is to keep the moving parts of the engine lubricated, to protect them against rust corrosion, and -- with modern detergent oil additives -- to keep them free of sludge and general engine gunk. But most of us also know some things about engine oil that aren't actually true.

[Motor & Engine Oil, Synthetic Motor Oil & Lubricants - Mag 1](#)

Engine oil also includes additives — chemical compounds designed to improve lubricant performance. Modern engines require these additives, found in both petroleum-based and synthetic oils. Without additives, your engine will fail. With them, your oil will darken, regardless of the number of heat cycles and abrasives present. ...

[Synthetic Engine Oil | Canadian Tire](#)

I pushed my stock Z28 way beyond its limits. I won the wimpy race and made it to class with plenty of time to spare. After 8 hours of class I approached my vehicle to see a huge puddle of oil under my car. I checked the dip stick. Dry. I used prolong engine treatment since the day I purchased the car and used the engine boost every oil change.
