One of the biggest camera announcements at 2014's Consumer Electronics Show may well have been the little Nikon D3300 and its collapsible 18-55mm F3.5-5.6 VR II lens. It may not shoot 4K video or offer a curved LCD (those shows are all about the tech trends) but it does represent the next generation of Nikon's very popular entry-level DSLR line, and that in itself is noteworthy.
